

DIPO OGinni

Senior Site Reliability Engineer | Platform Engineer

📍 Remote (EST) | 📞 +1 (905) 981-0153 | ✉️ coginni@gmail.com | 🔗 [linkedin.com/in/dipo-oginni](https://www.linkedin.com/in/dipo-oginni)

SUMMARY

Senior SRE and Platform Engineer with 10+ years of experience building and scaling cloud infrastructure. Proven track record of reducing incident response times, cutting cloud costs, and automating complex systems at scale. Deep expertise in Kubernetes, Terraform, and observability platforms. Experienced in high-compliance environments (financial services) with strong incident management and on-call leadership skills.

CORE SKILLS

Cloud Platforms: AWS, Azure, GCP

Infrastructure as Code: Terraform, Ansible, Packer, Pulumi

Containers & Orchestration: Kubernetes, OpenShift, Docker, Helm, ArgoCD

CI/CD: GitHub Actions, Azure DevOps Pipelines, Jenkins, CircleCI, GitOps

Observability: Datadog, Prometheus, Grafana, ELK Stack, CloudWatch, PagerDuty

Languages & Scripting: Python, Go, Bash

Databases: PostgreSQL, MySQL, MongoDB, DynamoDB, Aurora

Networking & Security: VPC, VPN, IAM, TLS, Load Balancers, Firewalls

Operating Systems: Linux (RHEL, Ubuntu), Unix

PROFESSIONAL EXPERIENCE

Senior Site Reliability Engineer | Euna Solutions

Sept 2024 – Present | Remote

- Designed centralized observability framework for 15+ products using Prometheus, Grafana, and Datadog — enabled real-time alerting and reduced blind spots across the platform
- Led incident response process improvements using PagerDuty and JIRA, reducing MTTR through runbook automation and post-incident tooling
- Architected and automated Disaster Recovery processes, ensuring RPO/RTO targets for business continuity
- Implemented cloud cost optimization strategies, **cutting monthly expenses by 20%**

Senior Site Reliability Engineer | BMO (Bank of Montreal)

Sept 2023 – June 2024 | Toronto, ON

- Managed infrastructure for **2,000+ servers** across RHEL and Windows environments in a regulated financial services setting

- Automated provisioning using Terraform and built immutable infrastructure with Ansible and Packer
- Implemented performance tuning and capacity management through integrated monitoring
- Configured Azure Load Balancers and firewall rules for high-availability workloads

DevOps Engineer | Exodus

Feb 2022 – Oct 2023 | Remote

- Automated Kubernetes cluster deployments using Terraform and Helm, **reducing provisioning time by 40%**
- Built proactive monitoring stack with Prometheus and Grafana, significantly reducing Mean Time to Detection (MTTD)
- Developed Python and Bash automation scripts, **saving 50+ hours of manual work monthly**

Build and Release Engineer | Exodus

May 2021 – Feb 2022 | Remote

- Optimized Jenkins CI/CD pipelines, **reducing build times by 20%**
- Enforced Git-flow branching strategies and pull request workflows
- Administered artifact management (Nexus) and streamlined dependency management

Cloud Engineer | Busha

Dec 2018 – Apr 2021 | Lagos, Nigeria

- Automated Azure infrastructure provisioning with Terraform for a fintech platform
- Built and maintained CI/CD pipelines with Jenkins for secure, reliable releases

Product Manager | SureGifts

Mar 2015 – Aug 2018 | Lagos, Nigeria

- Led cross-functional Agile teams, bridging technical and business requirements
- Drove platform performance improvements and feature launches that increased user engagement

CERTIFICATIONS

- **Certified Kubernetes Administrator (CKA)**
- **AWS Certified Developer – Associate**
- **AZ-104: Microsoft Azure Administrator Associate**

EDUCATION

M.Sc. — Federal University of Agriculture, Abeokuta (2014)

B.Sc. — Federal University of Agriculture, Abeokuta (2010)
